

BATTLE

2025
ELECTRIC RAIDER

DRIVER'S CHOICE.

RAIDER

STANDARD CAB - BEV

The fully electric Raider is a force of quality engineering built to last, while delivering zero emissions, zero fuel costs, and lower maintenance costs. Good for our planet and good for your business, our electric Raider lowers your total cost of ownership while reducing your environmental footprint.

The Battle Smart Cab integrates our custom RevolutionOS™ and MobilEye's Shield+ Advanced Driver Assistance Systems (ADAS) to encourage safe driving and increase your bottom line. RevolutionOS™ effortlessly provides easy-to-read actionable data, diagnostics, equipment utilization, and access to service manuals at the touch of a button.

COMPETITIVE ADVANTAGES

- 1 Large, flat, glass windshield; simple to replace and cost effective compared to complex, curved glass
- 2 Low Cab Forward Design (LCF) - Visibility and Angles
- 3 3-man bench seat with increased leg room — ideal for accommodating a wide range of passengers
- 4 18" Single Step Entry (ground to cab first step)
- 5 Low In-Door Windows- Allows curb-view from either side
- 6 BorgWarner Cascadia Motion iM-435 Motor
- 7 Stainless Steel Piano-Style Hinges
- 8 Optimal Turning Radius- gain better access to difficult streets, docks, loading zones

Cascadia Motion
iM-425

Single Cab: BEV

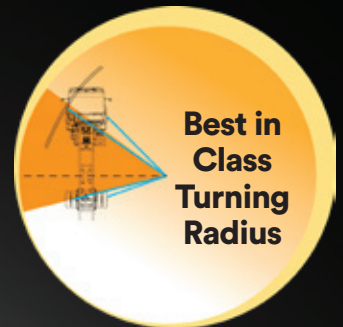

DRIVER'S CHOICE.
